

Sticky Vocabulary

<u>minibeast</u> A small invertebrate animal like a spider or insect.	<u>food chain</u> All living organisms need food to survive. Plants make their own food in their leaves. Plants are eaten by animals. These animals then become food for other animals, creating a food chain.
<u>insect</u> A small animal that has six legs and generally one or two pairs of wings.	<u>exoskeleton</u> A hard covering on the outside of an insect's body.
<u>carnivore</u> An animal that eats other animals.	<u>thorax</u> The chest of an animal.
<u>herbivore</u> An animal that eats plants.	<u>abdomen</u> A middle part of an animal.
<u>omnivore</u> An animal that eats other animals and plants.	<u>habitat</u> Where an animal lives.
<u>prey</u> An animal that is hunted and killed by another for food.	<u>microhabitat</u> A smaller habitat inside a larger one.
<u>predator</u> An animal that naturally preys on others.
