

Term 5- Green Fingers- How does your garden grow?

Sticky Vocabulary

Sticky Knowledge

p

germination	The development of a plant from a seed.
seedling	A young plant.
sprout	A shoot of a plant.
blossom	When a tree or a bush produces flowers.
deciduous	A tree that loses its leaves throughout the Autumn season.
evergreen	A tree that retains leaves all year round.

Did you know ...?

The leaves of a tree are green most of the time, but they can come in many colours, shapes and sizes. The leaves take in sunlight and use water and food from the roots to make the tree grow, and to reproduce.

Did you know ...?

A **wild** plant seed grows where it falls. It doesn't need to be planted or cared for as it grows.

A **garden** plant is a plant people choose to grow in their garden and it needs to be cared for as it grows.
